Dewey by the numbers

The Dewey Decimal System is a way to keep items in order by subject. It helps you find what you are looking for! In this system, books are numbered, from 000 to 999, and every topic has a number. The more specific the topic, the more specific the number. For example, you can find nonfiction books about butterflies in the 595.78s.

Dewey by the numbers:

000-999 general stuff (computers, UFOs, world records, journalism, libraries, things like Bigfoot)
100-199 philosophy & psychology (feelings, self-help, dreams, spooky stuff)
200-299 religion & mythology
300-399 social sciences (family, money, government, voting, holidays, transportation, folk & fairy tales)
400-499 languages (dictionaries, grammar)
500-599 natural sciences (math, plants, weather, dinosaurs, bugs, animals)
600-699 ways to use science (technology, health, cooking, pets, building)
700-799 art & recreation (crafts, fashion, dancing, music, games, sports)
800-899 literature (poetry, plays, jokes)
900-999 geography & history (pirates, flags, presidents, biographies, states, countries, family trees)
Dear Readers,

Are we back to normal yet? No! Not even close! But that’s OK, we are adapting! And we do all we can to get you the books and other items you love. **Taxi Crab**

A crabber and a crabby crab
Sat eating cabbage in a cab
When suddenly the crabber grabbed
The cabbage from the crabby crab,
Which made the crab more crabby still—
He snipped and snapped his claws until
The cabby turned around to blab,
“Now crabbiness inside my cab!
No crabbiness! No crabliness!
No snapping-cabbing jableness!
If you two do not curb your rage,
I’ll dump you on the seventh page!”

**Nacho is for Nacho!**

“In 1895, a baby boy was born in northern Mexico. His name was Ignacio Anaya, and like a lot of Ignacios, he was called Nacho for short.” As an adult, Nacho whipped up a snack in a restaurant with hot crispy tortillas, cheese and jalapeños. He called them Nacho’s Special ... and the rest is history!
